

GPS Workshop

This workshop is part of our May Summer Skills weekend and can be booked either separately or why not look at other half and full day workshops taking place on May 30-31.

An introductory workshop on using a GPS in the hills. This workshop gives an overview of the GPS, it's capabilities and it's limitations.

Topics covered will include

** self location*

** entering a waypoint*

** following a route*

** analysis and sharing post walk data*

This workshop is geared towards the hand held GPS device rather than phone apps. Those wishing to attend should bring their own device with them.

Where: Wicklow (exact venue tbc)

When: May 31 (1.00 – 5.00pm)

Cost: €30.00

Please contact the Mountaineering Ireland Training Office on 01 6251115 to book on to this course.
