

## Mountain Skills €22 Registration Fee Information

### **Why have we introduced a fee?**

• We held off with a registration fee for quite some time. However there was a fee which candidates were more or less aware of. This was the fee for the Mountain Skills Logbook €5 direct from the train or €10 direct from Mountaineering Ireland, followed by the €5 sticker fee at assessment.

### For their €22 fee they receive:

- Access to the full Mountain Skills Scheme training & assessment,
- A Digital Logbook,
- A Paper Logbook (given to the providers),
- A (one) Copy of the council magazine, Mountain Log,
- A training record account, to store their training records, which will carry with them, should they opt to become council members at a later date,
- Discount membership offer of €30, at the time of registration,
- A certificate of attendance at training

**NOTE:** All candidates who registered prior to the introduction of the fee on 07/01/2019, will automatically have a digital log and account created and be able to avail of the same benefits. (They gave permission at the point of registration, so GDPR covered already.)

• Providers, you will no longer be charged for MS logbooks or MSA stickers. These can be requested as needed along with Council Magazines and Certificates of Attendance.

• Rock Skills Scheme registration would also include the same/similar benefits. They receive slightly different materials more related to climbing, but no paper logbook exists. This scheme may also appeal to members and clubs in the way Mountain Skills does.
